2. Unbundled IOF Transport

2.1 Description

2.1.1 General	
D.	(Continued)
2.	<p>Failure of CLEC to Request Disconnection or Replacement Service by the Close of the Applicable Transition Period - If the CLEC has not requested disconnection of the UNE dedicated transport arrangement or has not submitted an order for a replacement service in accordance with Part B, Section 2.1.1.D.1, above, by the close of the applicable transition period, then the Telephone Company may, at its sole discretion, either: (a) disconnect the arrangement on or at any time after the close of the applicable transition period, provided that the Telephone Company has notified the CLEC in writing at least thirty (30) days in advance of the disconnection date, or (b) convert or migrate the arrangement to an analogous access (month-to-month term), resale, or non-section 251 commercial arrangement the Telephone Company shall identify in writing at least 30 days in advance to the CLEC, and the rates, terms, and conditions of such arrangement shall apply and be binding upon the CLEC as of the close of the applicable transition period. However, if the CLEC has notified the Telephone Company prior to the close of the applicable transition period that the CLEC challenges the Telephone Company's determination that access to the UNE dedicated transport arrangement is not required in accordance with Part B, Section 2.1.1.B.1.a or 2.1.1.C.1.a, above, the Telephone Company shall continue to provision the subject elements as UNEs and then seek resolution of the dispute by the Department or the FCC. If the dispute is resolved in the Telephone Company's favor, then the CLEC shall compensate the Telephone Company for the difference between the rate applicable for the unbundled network element in question and the rate that would be otherwise charged for use of that element, plus carrying charges, such as interest on such amount retroactive to the close of the applicable transition period. Late payments shall not apply to any back-billed amounts.</p>
a.	<p>Repricing Pending Actual Conversion or Migration - If the Telephone Company is unable to complete the conversion or migration described in Part B, Section 2.1.1.D.2 by the applicable date set forth therein, then the Telephone Company may, but shall not be required to, reprice the arrangement by application of the rate(s) that apply to the analogous access, resale, or commercial arrangement effective as of the close of the applicable transition period until such time as the Telephone Company completes the actual conversion or migration described in Part B, Section 2.1.1.D.2. Because such repricing may inherently involve, on a temporary basis, the application of rates to a facility or service provisioned through a format for which the Telephone Company's systems are not designed to apply such rates, the Telephone Company may effectuate such repricing by application of a surcharge to be equivalent to the applicable access, resale, or other analogous arrangement that the Telephone Company identifies under Part B, Section 2.1.1.D.2.</p>

(N)

2. Unbundled IOF Transport

2.1 Description

2.1.1	General
E.	Pursuant to the <i>Order on Remand</i> issued by the Federal Communications Commission on February 4, 2005, in WC Docket No. 04-313 and CC Docket No. 01-338 (the " <i>Triennial Review Remand Order</i> "), and the regulations promulgated by the FCC pursuant to that order, a CLEC's submission to the Telephone Company of an order for unbundled DS1 or DS3 dedicated transport shall constitute a certification that, to the best of the CLEC's knowledge based on diligent inquiry, the order is consistent with the restrictions set forth in Part B, Sections 2.1.1.B.1 and 2.1.1.C.1, above, and that the CLEC is entitled to unbundled access to the network element or elements ordered. Such diligent inquiry shall include, at a minimum, review of lists to be provided by the Telephone Company on its wholesale web site of the wire centers that meet specified criteria relating to the number of business lines that are served and the number of fiber-based collocators that are present, and any back-up data that the Telephone Company makes available to the CLEC under a non-disclosure agreement or that is otherwise available to the CLEC. When submitting an ASR for unbundled DS1 or DS3 dedicated transport for which self-certification under this section is required, the CLEC shall follow the Telephone Company's ordering guidelines and provide all specified supporting information on the ASR related to the UNE's eligibility so long as such method is no more onerous than providing certification by letter.
1.	If the Telephone Company wishes to challenge the CLEC's right to obtain access to the subject DS1 or DS3 transport element pursuant to 47 U.S.C. § 251(c)(3), the Telephone Company will provision the element as a UNE and then seek resolution of the dispute by the Department or the FCC. If it is determined, after completion of the applicable dispute resolution process, that the CLEC was not entitled to unbundled access to such element or elements, then the Telephone Company may reprice the facilities in question on a going-forward basis and, if the Telephone Company notified the CLEC of the dispute within 30 days of receipt of the CLEC's order, backbill the CLEC to the date on which the element was first provisioned, in the amount of the difference between the rate applicable to the unbundled network element in question and the rate that would be otherwise charged for the use of that element, plus carrying charges, such as interest, on such amount. Late payments shall not apply to any back-billed amounts.
2.	Notwithstanding any other provision of this tariff, the Telephone Company may reject a CLEC order for unbundled DS1 or DS3 dedicated transport without first seeking dispute resolution in any case where the CLEC's order conflicts with a Department or FCC determination that the wire centers involved in the CLEC order are non-impaired.
3.	The Telephone Company shall provide the back-up data required by Part B, Section 2.1.1.E no later than ten (10) business days following the CLEC's written request, but only if a nondisclosure agreement covering the back-up data is in effect between the Telephone Company and the CLEC at that time. Upon the CLEC's request, the Telephone Company shall update the back-up data to the month in which the CLEC requests the back-up data; provided, however, that the Telephone Company need not provide the back-up data for a particular wire center for a date later than the original date on which the data must have been current to establish the level of non-impairment (e.g., Tier 2, etc.) that the Telephone Company asserts as to that wire center.

(N)
(N)

2. Unbundled IOF Transport

2.2 Application of Rates and Charges

2.2.1 Channel Mileage	
A.	Channel mileage provides for the transmission facility between the TC's collocation nodes established within Telephone Company central offices. In the event that unbundled dedicated transport is provided in conjunction with an entrance facility, these rate elements apply between Telephone Company offices.
1.	Rates associated with channel mileage apply monthly on a fixed and per mile basis.

2.2.2 Entrance Facility	
A.	Pursuant to the <i>Order on Remand</i> issued by the Federal Communications Commission on February 4, 2005, in WC Docket No. 04-313 and CC Docket No. 01-338 (the " <i>Triennial Review Remand Order</i> "), and the regulations promulgated by the FCC pursuant to that order, and notwithstanding any other provision of this tariff, the Telephone Company will not provide a requesting TC with unbundled access to entrance facilities on or after September 28, 2005.
1.	An Entrance Facility is dedicated transport (lit or unlit) that does not connect a pair of Telephone Company wire centers.
2.	TCs that have unbundled entrance facilities in place as of the effective date of this tariff must discontinue such arrangements or convert them to alternative serving arrangements, where such alternative arrangements are available from the Telephone Company. Orders for such discontinuance or conversion must be placed early enough, in light of the applicable provisioning intervals, to ensure that the orders can be fulfilled by September 28, 2005. Any entrance facilities that are not disconnected or converted to alternative facilities by September 28, 2005 will be billed on and after such date at rates equivalent to the applicable month-to-month special access rates available under Verizon's tariffs, and will no longer be treated as unbundled network elements available under the terms of this tariff. The discontinuation of such unbundled entrance facilities does not alter either the Telephone Company's or the TC's pre-existing rights and responsibilities concerning interconnection facilities under section 251(c)(2) of the Act.
3.	Nothing in this Part B, Section 2.2.2 shall repeal, limit, or impair in any way the provisions of Part B, Section 17.1.2 of this tariff relating to Dark Fiber Channel Terminations.
4.	Rates associated with an Entrance Facility apply monthly on a fixed and per 1/4 mile basis. For DS1, the rates associated with Entrance Facility apply monthly on a fixed basis.

(N)
|
(N)

2.2.3 NRCs	
A.	The following NRCs apply (refer to Part A, Section 3).
1.	Service Order – applies on a standard basis or an expedited basis, as appropriate.
2.	Service Connection-Central Office Wiring – applies on a standard basis or an expedited basis, as appropriate.
3.	Service Connection-Other – applies on a standard basis or an expedited basis, as appropriate.
4.	Customer Misdirect-In - applies on a standard basis or an expedited basis, as appropriate.
5.	Customer Misdirect-Out – applies on a standard basis or an expedited basis, as appropriate.
6.	Design Change Charge

5. Local Loops**5.0 Limitation on Unbundling Obligation**

5.0.1	Regulation
A.	<p>Pursuant to the Federal Communication Commission's Report and Order and Order on Remand and Further Notice of Proposed Rulemaking released on August 21, 2003 in CC Docket Nos. 01-338, 96-98, and 98-147 (the "Triennial Review Order"), and its Order on Reconsideration released October 18, 2004 in CC Docket Nos. 01-338, 96-98 and 98-147 (the "Triennial Review FTTC Reconsideration Order"), and notwithstanding any other provision of this tariff, the Telephone Company shall not be obligated to provide access to a fiber to the home (FTTH) loop (or any segment thereof), fiber to the curb (FTTC) loop (or any segment thereof), or hybrid loop (as those terms are defined by said FCC orders) on an unbundled basis except in accordance with 47 U.S.C. § 251(c)(3) and 47 C.F.R. Part 51.</p>

(C)

(C)

(C)

5. Local Loops

5.3 High Capacity Links

5.3.1	Description
D.	(Continued)
a.	<p>Repricing Pending Actual Conversion or Migration - The ability of TCs to place advance orders under Part B, Section 5.3.1.D.1 may result in requests for the Telephone Company to process a significant number of conversions and/or migrations within a short time period. Accordingly, if the Telephone Company does not complete the conversion or migration requested by the TC as of the date requested by the TC, then the Telephone Company may reprice the arrangement effective as of that date by application of the rate(s) that apply to the available replacement service requested by the TC until such time as Telephone Company completes the actual conversion or migration to that available replacement service. Because such repricing may inherently involve, on a temporary basis, the application of rates to a facility or service provisioned through a format for which the Telephone Company's systems are not designed to apply such rates, the Telephone Company may effectuate such repricing by application of a surcharge calculated to make the effective charges equivalent to the available replacement service.</p>
2.	<p>Failure of TC to Request Disconnection or Replacement Service by the Close of the Applicable Transition Period - If the TC has not requested disconnection of the UNE DS1 or DS3 loop arrangement or has not submitted an order for a replacement service in accordance with Part B, Section 5.3.1.D.1, above, by the close of the applicable transition period, then the Telephone Company may, at its sole discretion, either: (a) disconnect the arrangement on or at any time after the close of the applicable transition period, provided that the Telephone Company has notified the TC in writing at least thirty (30) days in advance of the disconnection date, or (b) convert or migrate the arrangement to an analogous access (month-to-month term), resale, or non-section 251 commercial arrangement the Telephone Company shall identify in writing at least 30 days in advance to the TC, and the rates, terms, and conditions of such arrangement shall apply and be binding upon the TC as of the close of the applicable transition period. However, if the TC has notified the Telephone Company prior to the close of the applicable transition period that the TC challenges the Telephone Company's determination that access to the UNE DS1 or DS3 loop is not required in accordance with Part B, Section 5.3.1.B.1.a or 5.3.1.C.1.a, the Telephone Company shall continue to provision the subject elements as UNEs and then seek resolution of the dispute by the Department or the FCC. If the dispute is resolved in the Telephone Company's favor, then the TC shall compensate the Telephone Company for the difference between the rate applicable for the unbundled network element in question and the rate that would be otherwise charged for use of that element, plus carrying charges, including such as interest on such amount retroactive to the close of the applicable transition period. Late payments shall not apply to any back-billed amounts.</p>
a.	<p>Repricing Pending Actual Conversion or Migration - If the Telephone Company is unable to complete the conversion or migration described in Part B, Section 5.3.1.D.2 by the applicable date set forth therein, then the Telephone Company may, but shall not be required to, reprice the arrangement by application of the rate(s) that apply to the analogous access, resale, or commercial arrangement effective as of the close of the applicable transition period until such time as the Telephone Company completes the actual conversion or migration described in Part B, Section 5.3.1.D.2. 5.3.1	Description
E.	Pursuant to the <i>Order on Remand</i> issued by the Federal Communications Commission on February 4, 2005, in WC Docket No. 04-313 and CC Docket No. 01-338 (the " <i>Triennial Review Remand Order</i> "), and the regulations promulgated by the FCC pursuant to that order, a TC's submission to the Telephone Company of an order for an unbundled DS1 or DS3 loop shall constitute a certification that, to the best of the TC's knowledge based on diligent inquiry, the order is consistent with the restrictions set forth in Part B, Sections 5.3.1.B.1 or 5.3.1.C.1, above, and that the TC is entitled to unbundled access to the network element or elements ordered. Such diligent inquiry shall include, at a minimum, review of lists to be provided by the Telephone Company on its wholesale web site of the wire centers that meet specified criteria relating to the number of business lines that are served and the number of fiber-based collocators that are present, and any back-up data that the Telephone Company makes available to the TC under a non-disclosure agreement or that is otherwise available to the TC. When submitting an ASR for an unbundled DS1 or DS3 loop for which self-certification under this section is required, the TC shall follow the Telephone Company's ordering guidelines and provide all specified supporting information on the ASR related to the UNE's eligibility so long as such method is no more onerous than providing certification by letter.
1.	If the Telephone Company wishes to challenge the TC's right to obtain access to the subject DS1 or DS3 loop element pursuant to 47 U.S.C. § 251(c)(3), the Telephone Company will provision the element as a UNE and then seek resolution of the dispute by the Department or the FCC. If it is determined, after completion of the applicable dispute resolution process, that the TC was not entitled to unbundled access to such element or elements, then the Telephone Company may reprice the facilities in question on a going-forward basis and, if the Telephone Company notified the TC of the dispute within 30 days of receipt of the TC's order, will backbill the TC to the date on which the element was first provisioned, in the amount of the difference between the rate applicable to unbundled access to the network element in question and the rate that would be otherwise charged for the use of that element, plus carrying charges, such as interest, on such amount. Late payments shall not apply to any back-billed amounts.
2.	Notwithstanding any other provision of this tariff, the Telephone Company may reject a TC order for unbundled DS1 or DS3 loops without first seeking dispute resolution in any case where the TC's order conflicts with a Department or FCC determination that the wire center involved in the TC order is non-impaired.
3.	The Telephone Company shall provide the back-up data required by Part B, Section 5.3.1.E no later than ten (10) business days following the TC's written request, but only if a nondisclosure agreement covering the back-up data is in effect between the Telephone Company and the TC at that time. Upon the TC's request, the Telephone Company shall update the back-up data to the month in which the TC requests the back-up data; provided, however, that the Telephone Company need not provide the back-up data for a particular wire center for a date later than the original date on which the data must have been current to establish the level of non-impairment that the Telephone Company asserts as to that wire center.

13. Expanded Extended Loop (EEL)

13.3 Responsibility of the CLEC

13.3.1	Description	
A.	The CLEC must certify in writing that the EEL arrangement satisfies the eligibility criteria set forth in Section 13.1.1.D. Such certification will not delay the provisioning of EEL arrangements. The CLEC must remain in compliance with the eligibility criteria for so long as the CLEC continues to receive the EEL arrangement from the Telephone Company. The service eligibility criteria shall be applied to each DS1 circuit or DS1 equivalent circuit. If the circuit is, becomes, or is subsequently determined to be, noncompliant, the noncompliant circuit will be treated as described in Section 13.3.1.B below. The foregoing shall apply whether the circuits in question are being provisioned to establish a new circuit or to convert an existing wholesale service, or any part thereof, to unbundled network elements. For existing circuits, the CLEC must re-certify in writing for each DS1 circuit or DS1 equivalent on or before August 13, 2006. Circuits not re-certified shall be treated as described in Section 13.3.1.B below.	(T)
B.	If a circuit is or becomes noncompliant as described in Section 13.3.1.A above, and the CLEC has not submitted an LSR or ASR, as appropriate, to the Telephone Company requesting disconnection of the noncompliant facility and has not separately secured from the Telephone Company an alternative arrangement to replace the noncompliant circuit, then the Telephone Company shall reprice the subject circuit, effective beginning on the date on which the circuit became non-compliant, by application of a new rate (or, by application of a surcharge to an existing rate) to be equivalent to an analogous access service or other analogous arrangement that the Telephone Company shall identify in a written notice to CLEC. The new rate shall be no greater than the lowest rate the CLEC could have otherwise obtained for an analogous access service or other analogous arrangement.	(N) (N)
C.	When submitting an ASR for a circuit for which certification under Section 13.3.1.A above is required, the CLEC should follow Verizon's ordering guidelines and provide all specified supporting information on the ASR related to the circuit's eligibility, but at a minimum, the CLEC must include the certification in the remarks section of the ASR as follows: "Certification: The circuit(s) requested in this ASR meet the eligibility criteria set forth in 47 C.F.R. § 51.318(b)(2)." The foregoing certification must be contained in the Remarks section of the ASR unless and until such time as provisions are made to populate other fields on the ASR to capture this certification. The CLEC has a duty of good faith and fair dealing, requiring that when the CLEC submits its certification, it knows, in fact, that each requirement of 47 C.F.R. § 51.318 is met. The Telephone Company may reject any ASR for a circuit for which certification is required under this section if the ASR does not contain the required certification.	
D.	The CLEC shall maintain records adequate to support its compliance with the service eligibility criteria for each DS1 or DS1 equivalent circuit for at least eighteen (18) months after the service arrangement in question is terminated.	
E.	The CLEC is responsible for initiating and isolating all end user trouble reports and isolating the trouble to the Telephone Company network. The trouble reporting procedure must conform to the established mechanized process.	

Verizon New England Inc.

13. Expanded Extended Loop (EEL)
13.4 Regulations

13.4.1 General	
A.	The CLEC will have assignment control of all multiplexers and transport and must specify a connecting facility arrangement (CFA) for each low speed channel termination or transport termination requested.
B.	Orders for backbone elements and EEL loops will be accepted at the same time and will be treated as one order. When the backbone element and subtending EEL loop elements are ordered concurrently, billing for the backbone element will begin when at least one subtending loop has been installed and turned up to the CLEC. If the backbone and loop elements are not ordered concurrently, billing of the backbone element will begin when the backbone element is installed and turned up to the CLEC.
C.	An EEL arrangement may be ordered on an expedited basis.
D.	When the CLEC requests a change from one EEL arrangement to another, such changes are treated as discontinuances of existing service and installations of new service.
E.	<p>Certification Audits— Once per calendar year, the Telephone Company may obtain and pay for an independent auditor to audit CLEC compliance in all material respects with the service eligibility criteria applicable to High Capacity EELs set forth in Section 13.1.1.D under which the CLEC has self-certified. Audits will not be conducted prior to the provisioning of an EEL arrangement. The Telephone Company will provide at least thirty days' written notice to a CLEC that it will conduct an audit.</p> <p>1. The audit shall be performed by an independent party as authorized by the Telephone Company. Such a request will be initiated by the Telephone Company no more than once per year. Any such audit shall be performed in accordance with the standards established by the American Institute for Certified Public Accountants, and may include, at the telephone company's discretion, the examination of a sample selected in accordance with the independent auditor's judgment.</p> <p>2. The CLEC shall supply required data, including but not limited to NPA-NXX and 4-digit telephone number suffixes associated with each DS1 or DS1 equivalent EEL arrangement, and associated usage data provided such records are kept by the CLEC as part of its normal course of business.</p> <p>3. Where non-compliance is found, the CLEC must convert all non-compliant circuits to the appropriate service, true up any difference in payments, and make the correct payments on a going-forward basis. To the extent the independent auditor's report concludes that the CLEC failed to comply in all material respects with the service eligibility criteria set forth in Section 13.1.1.D, then (without limiting the Telephone Company's rights under Section 13.3.1.B. above) the CLEC must reimburse the Telephone Company for the cost of the independent auditor within thirty (30) days after receiving a statement of such costs from the Telephone Company. Proof of cost shall be the bills submitted to the Telephone Company by the independent auditor in adequate detail.</p> <p>4. Should the independent auditor confirm that the CLEC complied in all material respects with the service eligibility criteria set forth in Section 13.1.1.D, then the CLEC shall provide to the independent auditor for its verification a statement of the CLEC's reasonable and verifiable costs of complying with any requests of the independent auditor, and the Telephone Company shall, within sixty (60) days of the date on which the CLEC submits such costs to the independent auditor, reimburse the CLEC for its reasonable and verifiable costs verified by the independent auditor. The CLEC shall maintain records adequate to support its compliance with the service eligibility criteria for each DS1 or DS1 equivalent circuit for at least eighteen (18) months after the service arrangement in question is terminated.</p>

A.	All EEL arrangements are subject to the appropriate maintenance service standards applicable to the link.	

17. Unbundled Dark Fiber**17.1 General**

17.1.1	Description
D.	(Continued)
a.	Repricing Pending Actual Conversion or Migration - If the Telephone Company is unable to complete the conversion or migration described in Part B, Section 17.1.1.D.2 by the applicable date set forth therein, then the Telephone Company may, but shall not be required to, reprice the arrangement by application of the rate(s) that apply to the commercial arrangement effective as of the close of the applicable transition period until such time as the Telephone Company completes the actual conversion or migration described in Part B, Section 17.1.1.D.2. Because such repricing may inherently involve, on a temporary basis, the application of rates to a facility or service provisioned through a format for which the Telephone Company's systems are not designed to apply such rates, the Telephone Company may effectuate such repricing by application of a surcharge calculated to make the effective charges equivalent to the applicable commercial arrangements that the Telephone Company identifies under Part B, Section 17.1.1.D.2. Telephone Company identifies under Part B, Section 17.1.1.D.2.
E.	Pursuant to the <i>Order on Remand</i> issued by the Federal Communications Commission on February 4, 2005, in WC Docket No. 04-313 and CC Docket No. 01-338 (the " <i>Triennial Review Remand Order</i> "), and the regulations promulgated by the FCC pursuant to that order, a TC's submission to the Telephone Company of an order for unbundled dark fiber dedicated transport shall constitute a certification that, to the best of the TC's knowledge based on diligent inquiry, the order is consistent with the restrictions set forth in Part B, Section 17.1.1.C.1.a, above, and that the TC is entitled to unbundled access to the network element ordered. Such diligent inquiry shall include, at a minimum, review of lists to be provided by the Telephone Company on its wholesale web site of the wire centers that meet specified criteria relating to the number of business lines that are served and the number of fiber-based collocators that are present, and any back-up data that the Telephone Company makes available to the TC under a non-disclosure agreement or that is otherwise available to the TC. When submitting an ASR for unbundled dark fiber transport for which self-certification under this section is required, the CLEC shall follow the Telephone Company's ordering guidelines and provide all specified supporting information on the ASR related to the UNE's eligibility so long as such method is no more onerous than providing certification by letter.
1.	If the Telephone Company wishes to challenge the TC's right to obtain access to the subject fiber transport element pursuant to 47 U.S.C. § 251(c)(3), the Telephone Company will provision the element as a UNE and then seek resolution of the dispute by the Department or the FCC. If it is determined, after completion of the applicable dispute resolution process, that the TC was not entitled to unbundled access to such element, then the Telephone Company may reprice the facilities in question on a going-forward basis and, if the Telephone Company notified the TC of the dispute within 30 days of receipt of the TC's order, backbill the TC to the date on which the element was first provisioned, in the amount of the difference between the rate applicable to unbundled access to the network element in question and the lowest rate that the TC could have otherwise obtained for an analogous arrangement had the TC not ordered such arrangement as a UNE, plus carrying charges, such as interest on such amount. The Telephone Company also may disconnect the subject dark fiber facility thirty (30) days after the date on which the dispute is resolved in the Telephone Company's favor. In any case, where the TC, within thirty (30) days of the date on which the dispute is resolved, submits a valid ASR for a "lit" service to replace the subject dark fiber transport facility, the Telephone Company shall continue to provide the dark fiber transport facility at the rates that would be otherwise charged, but only for the duration of the standard interval for installation of the "lit" service.
